

## WHAT READERS SAY ABOUT SHAMAN EXPRESS

**Unusual and darkly humorous** - "Shaman Express is an unusual novel in that both characters are the authors; giving it the impression of being more like two interspersed frankly written journals than fiction (...) Definitely different and sometimes darkly humorous, Shaman Express is adult literature recommended for those who don't mind a trip through the shady side of life on the way to awareness." June Kent for the Indie Shaman. [Read full review](#)

**Delightful** - "I enjoyed the book and found the blending of the real with the mystical to be a delightful introduction to the ideas of shamanism. This is the sort of novel that fans of Chuck Palahniuk would enjoy as the writing shares some elements that his work presents (...)" The Nerdy Girl Express [Read full review](#)

**The search for meaning, unplugged and raw** - "This is a curious book: on the surface it appears to be the spiritual journey of two seekers, but dig deeper and you will find all kinds of metaphors for human existence. Written from the dual points of view of our protagonists, we follow them as they travel across continents, in search of the evasive meaning and affirmation of life (...) Though-provoking, and at times annoying, but an exciting read." Emma L. [Read full review](#)

**Excellent read** - "I could not put this book down, because I wanted to know what the protagonists would discover. I loved how the book had two accounts of what was being experienced because it gave a fuller picture of what was being learned. I definitely recommend this book as an excellent read." Maria S.

**Recommended** - "A very interesting and fascinating book. The description of the spiritual journey of the characters is great and the book is well written. Recommended." A.M. Giacomasso - NetGalley Reviewer

**A pleasant surprise** - "I did not know anything about shamanism when buying this book and I was afraid I would not understand a lot, but quite the opposite. The book is very accessible, even for the non-shamans amongst us. It is also entertaining and refreshing. A nice and pleasant change from the history novels I usually read. Is it provocative as the summary says? Yes, probably, but neither disturbing nor confusing." Anonymous reader

**Stimulating** - "I edited this novel. It's great - funny and intellectually, and spiritually stimulating. Recommended." [Allister Thompson](#)

**Fascinating** - "The spiritual journey of the characters in this book was fascinating. The authors' writing kept me invested in the characters." C. Underwood - NetGalley Reviewer

Shaman Express (Beretta Rousseau, 2018) is available for purchase worldwide in paperback and Ebook. Visit [www.benedictrousseau.com](http://www.benedictrousseau.com) for more information.

**This book is by no means a guide to shamanism.** Published on 31 May 2018, Shaman Express was written by two authors and is adult literature. The story is told by the two main characters - *Benedetta* by Bénédicte Rousseau. Warning: this novel contains descriptions of sexual assault that may be troubling for some readers.
